

Delivering quality training to the industry and beyond

With the economy driving us to become more environmentally aware and the government forcing taxes on us for site waste and damaging fumes to the environment Forum Training are offering a new series of courses addressing the issues.

Level 1 (NCFE) Introductory Certificate to Environmental Awareness (Construction)

1 Day

Suitable for anyone at any level working in the construction industry

Level 3 (NCFE) Associate Certificate for Environmental Practitioner - IEMA Approved

5 Days - over 4-6 months

The course will provide individuals with the environmental knowledge and skills necessary to improve the environmental performance of their organisation.

Sustainability and Corporate Social Responsibility

Half Day

Applicable to candidates working in a supervisory or managerial level in any sector.

Receive an introduction to the concept of sustainability and explore how it can be applied in a business context through Corporate Social Responsibility.

Carbon Footprinting and Energy Management

Half Day

Applicable to candidates working at any level in any industry.

However, it would be useful to any member of an organisation concerned with managing environmental aspects and impacts of an environmental improvement programme.

Level 2 (ILM) Award in Site Waste Management Awareness

1 Day

Designed for all the key players i.e. clients, designers architects, principle contractors, subcontractors and suppliers.

Level 3 (ILM) Certificate in Site Waste Management Planning and Implementation

6 half days

Discover the knowledge and skills needed to write and implement a Site Waste Management Plan and meet the legislative requirements

Delegates must have completed Level 2 Award before attending this course

Carbon Reduction Commitment

1.5 hours

A short seminar to explain the scope and coverage of the scheme, how it will work, what steps companies should be taking and the potential problem areas.

Climate Change Act 2009 - An Overview

1.5 hours

This session will cover key aspects of the Act including the target emission reduction framework and the Climate Change Commission carbon reporting and adaptation.

Forum Training presents a brand new set of training to help you as a business understand environmental issues and the things that really matter to you as a member of the construction industry

Accredited by IEMA and ILM these courses will prepare your employees to 'think environmental'
